PATTERNED LINOLEUM SHEETING

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- I. Group I, claim(s) 1-14 and 17-28, drawn to a method for producing a patterned linoleum sheeting.
- II. Group II, claim(s) 15, 29, and 30, drawn to a patterned linoleum sheeting.
- III. Group III, claim 16, drawn to use of a patterned linoleum sheeting.

3. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The only common technical feature of Groups I-III, patterned linoleum sheeting, is well known in the art, e.g., as a covering for floors, as evidenced by Glavic (US 4,429,461: col. 1, L. 6-13, L. 22-25, L. 41-43) and Schwonke et al. (US 2002/0020128: Abstract; [0005]). This common technical feature, being known in the art, is therefore

not a special technical feature, such that Groups I-III do not relate to a single general inventive concept.
